(54) Title: METHOD FOR SYNTHESIZING ACOUSTIC SPATIALIZATION

(54) Titre : PROCEDE DE SYNTHESE ET DE SPATIALISATION SONORES

(57) Abstract: The invention relates to the synthesis and the joint spatialization of sounds emitted by virtual sources. According to the invention, a step (ETA) is provided that consists of determining parameters including at least one gain (g_i) for defining, at the same time, a loudness characterizing the nature of the virtual source and the position of the source relative to a predetermined origin.

(57) Abrégé : L'invention concerne la synthèse et la spatialisation conjointe de sons issus de sources virtuelles. Selon l'invention, on prévoit une même étape (ETA) consistant à déterminer des paramètres incluant au moins un gain (g_i), pour définir en même temps: une intensité sonore caractérisant la nature de source virtuelle, et la position de la source par rapport à une origine prédéterminée.
